REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: a structure search of the compounds of formula (I) as recited in claim 1 was free of the prior art. Applicants' claim amendments and arguments concerning the rejections of record under 35 U.S.C. §112, 1st and 2nd paragraphs were found to overcome these rejections. Specifically, regarding the rejection under 35 U.S.C. §112, 2nd paragraph concerning the term "activated derivative" were found persuasive upon reconsideration, because it was found that the rejected claims clearly define what is an activated derivative. Applicants' claim amendments limiting the scope of claims 21-23 to a method for the treatment of a condition selected from asthma, COPD, and rhinitis overcame the rejection of record under 35 U.S.C. §112, 1st paragraph. For these reasons, pending claims 1-16 and 20-23 are found allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
